Subject: Comment on Interim Final Rules for Group Health Plans and Health Insurance Issuers Relating to Coverage of Preventive Services; etc. (Document ID HHS-OS-2010-0018-0001)
Date: Wednesday, September 15, 2010 6:45:39 PM

Secretary Sebelius;

It is important to realize that contraception is part preventive care for women. It is important for women to have access to wide-ranging contraceptive care and support cost-sharing for preventive care services like contraception is support families

It is not fair, it is unacceptable, unreasonable and unnecessary to delay access to contraceptive care as preventative health services.

We need to ensure from the start, that there is access to family planning services in health care reform for women, families and communities from the beginning.

Thank you,

Guadalupe Carreon
